NEVCO'S INTEGRATED VIDEO DISPLAY SYSTEM; TURNKEY DESIGN AND BUILD SOLUTION

Video systems are complex. Designing, creating, and installing your Video Display System, and training your operators and production staff requires hundreds of decisions to be made to avoid failure and maximize the power of your new system. Your Nevco Display and Scoring Consultant has the training and years of experience that you will need to be successful, and will walk you step-by-step through our comprehensive time-tested approach outlined below.

1 STAKEHOLDERS GOALS

Our collaborative process ensures all stakeholders concerns and visions are addressed in the final solution.

- Architect
- Athletic director
- Superintendent
- Board of directors
- Booster club
- Community

2 FINANCIAL STRATEGIES

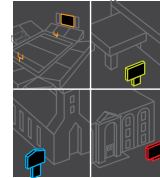

Let your Nevco Display and Scoring Consultant help you see how displays fund themselves through revenue generation. You may be able to do more than you imagined!

- Budget development
- Sponsor revenue
- Private donations
- Sports marketing services
- Advertising programs

3 PROJECT SCOPE

Stay in control of your project scope by working with your Nevco Display and Scoring Consultant to create a reliable project plan that creates the best return on investment for you with no surprises.

- Sports facility
 - Primary & Secondary sports
- Education
 - Curriculum Development
- Business
- Place of worship
- School campus

4 FACILITY ASSESSMENT

Once you have your vision outlined, let Nevco's comprehensive facility assessment formulate the appropriate scale and equipment selection for a superior production and viewing experience.

- Stadium configuration/seating capacity
- Distance/viewing angle
- Control room location
- Wireless controls/cables
- Power sources:
 - wired/solar options
- Special considerations

5 SYSTEM DESIGN

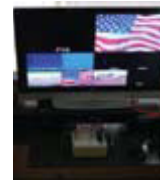

Once the appropriate scale has been determined for your venue, Nevco will produce a system design to fulfill your video display objective that includes a custom proof of how your video display will look in its new location.

- Display & scoring
- Timing
- Sound
- Accessories
- Enhancements
- Cameras
- Software
- Customized proof

6 CONTROL ROOM DESIGN

Your control room will be the brain of your video display system and your video production. Your Nevco Display and Scoring Consultant will design the optimal control room for your system.

- Location
- Furniture
- Personnel
- Installation
- Size requirements
- Cable pathways
- Power & HVAC requirements

7 SYSTEM INSTALLATION

From detailed mechanical prints, to collaboration with certified contractors, your Nevco team will see your installation through to completion.

- On-site installation supervision
- Detailed mechanical prints
- Detailed electrical prints
- Fiber terminations
- Collaboration with contractors

8 ON-SITE TRAINING / SUPPORT

Once your video system is installed, have Nevco train and certify your production and maintenance crews to create and use your custom applications like the pros.

- On-site training certification
- Maintenance training
- Use and operation
- Trouble shooting
- Custom applications

9 LIFE-TIME SERVICE / SUPPORT

Our services provide you with resources to keep your Nevco system running smoothly and effectively over the life of your Nevco products, offering scalable solutions for upgrades at any stage.

- Nevco warranty
- Free technical support
- 24 hour turn-around time on service parts
